135 Skok Hall
2003 Upper Buford Circle
University of Minnesota
St. Paul, MN 55108
cmosley@umn.edu

EDUCATION

- 2024 Ph.D., Department of Biological Sciences, University of Notre Dame
Dissertation: *Habitat and Angler Influences on Recreational Fisheries Ecology and Management*
- 2019 B.S., Environmental Science, Emory University
- 2017 A.A., Oxford College of Emory University

RESEARCH EXPERIENCE

- 2024-present **National Science Foundation Postdoctoral Research Fellow (PI)**, University of Minnesota, Department of Fisheries, Wildlife, and Conservation Biology
Investigative collaborator: Dr. Gretchen Hansen. Research investigating climate changes impacts on freshwater fish biology and ecology across scales of thermal tolerance and competition (NSF Award #2410099)
- 2019-2024 **Ph.D. Candidate**, University of Notre Dame, Department of Biological Sciences, Advisor Dr. Stuart Jones. Research angling and electrofishing in Vilas County, WI within Fishscapes project (NSF Award#1716066). Statewide analysis of fish relative estimates in northern temperate lakes, whole-lake experimentation investigating fish behavior and responses to habitat additions, and limnological sampling. Biostatistics using linear model comparisons and telemetry data in RStudio.
- 2018-2019 **Undergraduate Researcher**, Georgia Institute of Technology, Advisor: Dr. Emily Weigel. Freshwater ecology research to determine presence of Chattahoochee crayfish (*Cambarus Howardi*) and examine water quality in the aquatic habitat of the Proctor Creek Watershed.

TEACHING EXPERIENCE

- Fall 2023 Teaching Assistant and Tutorial instructor, Department of Biological Sciences, University of Notre Dame – “Introduction to Biocomputing: Tutorial”
- Spring 2023 Teaching Assistant, Department of Biological Sciences, University of Notre Dame – “General Ecology”
- Fall 2019 Teaching Assistant, Department of Biological Sciences, University of Notre Dame – “Biology I: Big Questions”

PUBLICATIONS

Accepted Peer-Reviewed Publications:

- 2025 Bertinetti, C., **Mosley, C.**, Jones, S., & Torres-Dowdall, J. (2024). Robust sensory traits across light habitats: Visual signals but not receptors vary in centrarchids inhabiting distinct photic environments. *Molecular Ecology*.
- 2024 **Mosley, C. L.**, Dassow, C. J., Solomon, C. T., & Jones, S. E. (2024). Counteracting effects of “hook avoidance” and “hook habituation” on angler catch rates in a catch-and-release fishery. *Fisheries Management and Ecology*, e12694.
- 2024 Moore, A., Calhoun, K., Wilkinson, C., Alford, E., Estien, C., Ellington, A., Fleury, G., Garcia, N., Hicks, A., **Mosley, C.**, Vitale-Penniman, N., Queer Black Voices in Conservation (2024). *Conservation Biology*.
- 2022 **Mosley, C. L.**, Dassow, C. J., Caffarelli, J., Ross, A. J., Sass, G. G., Shaw, S. L., Solomon, C. T., & Jones, S. E. (2022). Species differences, but not habitat, influence catch rate hyperstability across a recreational fishery landscape. *Fisheries Research*, 255, 106438.

Manuscripts In Revision:

- 2024 Dassow, C., **Mosley, C.**, Solomon, C., Poorten, B., Sass, G., Jones, S. “Modeling density dependent growth in a catch and release fishery” (2025). In revision. *Canadian Journal of Fisheries and Aquatic Sciences*.

Manuscripts In Prep:

Mosley, C., Link, D., Hansen, G. “Evaluating the influence of climate factors and lake characteristics on trophic position and niche overlap in Minnesota fisheries across thermal guilds”

Mosley, C., Dassow, C., Wolf, G., Wilkinson, M., Mrnak, J., Shaw, S., Sass, G., Solomon, C., Jones, S. “Coarse Woody Habitat Addition Influences on Largemouth Bass Growth: Movement and Foraging Success.”

Iwicki, C., Dassow, C., Jones, S., **Mosley, C.**, Nieman, C., Sass, G., Solomon, C., Trudeau, A., Jensen, O. “The impact of different fishing knowledge sources on trip expectations and overall trip satisfaction”

Book Chapters:

2023 Title: The Joy and Persistence of the Black Fisher Tradition. “Been Outside: Adventures of Black Women, Nonbinary, and Gender Nonconforming People in Nature” *Mountaineer Books* (2023).

FELLOWSHIPS, AWARDS, AND DISTINCTIONS:

2026 **Early Career Travel Grant**, The Association for the Sciences of Limnology and Oceanography, \$250

2026 **Minnesota Environment and Natural Resources Trust Fund**, “Identifying Climate-Resilient Fisheries to Guide Minnesota Lake Management,” \$643,000 (Consulting Scientist)

2026 **Minnesota Environment and Natural Resources Trust Fund**, “Evaluating forward-facing sonar impacts on Minnesota fish.” \$676,000 (Co-PI)

2025 **Ecological Dissertations in the Aquatic Sciences XV participant**
The Association for the Sciences of Limnology and Oceanography (April 2nd-8th, 2025)

2024 **Tidal Wave Fellowship**
September 2024—August 2025, Black in Marine Science (BIMS), ~\$10,000

2024 **Postdoctoral Research Fellowship in Biology**
July 2024—July 2027, National Science Foundation, \$240,000

2024 **CEST Predoctoral Fellowship**
January 2024, University of Notre Dame, ~\$21,840

2023 **Notebaert Professional Development Fund**
March 2023, University of Notre Dame, \$500

2023 **Graduate Student Government Conference Presentation Grant**,
April 2023, University of Notre Dame, \$300

2022 **Diversity, Equity and Inclusion Mini Grant**

- October 2022, Amplifying the Alliance to Catalyze Change for Equity In STEM Success (ACCESS+), \$1250
- 2022 **Merrilee Clark Redmond Endowment for Excellence**
March 2022, University of Notre Dame, \$4,000
- 2022 **Frazier Thompson Scholarship**
March 2022, University of Notre Dame, \$6,000
- 2022 **Summer Graduate Fellowship**
February 2022, University of Notre Dame Environmental Research Center (UNDERC), \$8,750
- 2021 **Summer Graduate Fellowship**
February 2021, University of Notre Dame Environmental Research Center (UNDERC), \$8,750
- 2020 **Summer Graduate Fellowship**
February 2020, University of Notre Dame Environmental Research Center (UNDERC), \$8,750
- 2020 **GEM University fellow**
August 2020, National Consortium of Graduate Degrees for Minorities in Engineering (GEM)
- 2020 **Arthur J. Schmitt Presidential Leadership Fellowship**
August 2020 – May 2024, University of Notre Dame, ~\$43,680
- 2024 **Social Justice Award**
May 2024, University of Notre Dame \$3,000
- 2023 **Equal Opportunities Section Travel Award**
June 2023, American Fisheries Society, \$500
- 2023 **BIMS Week Travel Award**
November 2023, Black Women in Ecology, Evolution, and Marine Science (BWEEMS), ~\$1,500
- 2022 **BWEEMS conference Travel Award,**
December 2022, BWEEMS, ~\$2,500
- 2022 **American Fisheries Science Conference Student Travel Award**
August 2022, National Oceanic and Atmospheric Administration, ~\$3,000

CONFERENCE PARTICIPATION

- 2026 **Oral Presentation**, “Evaluating the Influence of Lake Characteristics, Climate Factors, and Thermal Tolerance on Niche Breadth and Overlap of Minnesota Fish Populations”, ASLO-SIL Joint Meeting, Montreal, Quebec, Canada, May 15th, 2026
- 2026 **Workshop facilitator**, “How to transform your abstract into a performing act”, ASLO-SIL Joint Meeting, Montreal, Quebec, Canada, May 13th, 2026

- 2026 **Oral Presentation**, “Evaluating the Influence of Lake Characteristics, Climate Factors, and Thermal Tolerance on Niche Breadth and Overlap of Minnesota Fish Populations”, Minnesota Chapter American Fisheries Society Meeting, Duluth, Minnesota, February 25th, 2026
- 2025 **Oral Presentation**, “Trophic Position and Niche Breadth Across Freshwater Fish Thermal Guilds”, BWEEMS conference, Durham, NC, May 29th, 2025
- 2024 **Poster Presentation**, “Coarse Woody Habitat Addition Influences on Largemouth Bass Growth: Movement and Foraging Success” The Association for the Sciences of Limnology and Oceanography, June 6th, 2024
- 2023 **Oral Presentation**, “Hook Memory Without Hyperdepletion in Largemouth Bass”, American Fisheries Society Annual Meeting, Grand Rapids MI, August 22, 2023
- 2023 **Oral Presentation**, “The Joy and Persistence of the Black Fisher Tradition”, Session: We Are Not Adjacent to Nature We Are Part of It, American Fisheries Society Annual Meeting, Grand Rapids MI, August 21, 2023
- 2023 **Oral Presentation**, “Angler effort influences on fish behavior: Hook memory impacts on recapture probability in a recreational fishery”, STEMNoire Annual Conference, San Juan Puerto Rico, June 24th, 2023
- 2023 **Poster Presentation**, “Species Differences, but Not Habitat, Influence Catch Rate Hyperstability across a Recreational Fishery Landscape”, Schmitt Fellowship Dinner, South Bend IN, April 3rd, 2023
- 2023 **Poster Presentation**, “Species Differences, but Not Habitat, Influence Catch Rate Hyperstability across a Recreational Fishery Landscape”, BWEEMS Conference, Miami FL, January 14th, 2023
- 2022 **Poster Presentation**, “Species Differences, but Not Habitat, Influence Catch Rate Hyperstability across a Recreational Fishery Landscape”, Joint Aquatic Sciences Meeting (JASM), Grand Rapids MI, May 16, 2022.
- 2021 **Oral Presentation**, “Fishscapes: Human impacts on lake ecology and fisheries dynamics”, UNDERC 2021 Seminar Series -UNDERC fellows, July 22, 2021.

- 2020 **Oral Presentation and Interactive Q&A**, “Species and lakeshore development effects on the relationship between fish abundance and catch rates,” North American Lake Management Society Annual Symposium, November 18, 2020.
- 2020 **Poster Presentation**, “Species and lakeshore development effects on the relationship between fish abundance and catch rates,” Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS) The National Diversity in STEM Virtual Conference, October 19-24, 2020.
- 2020 **Oral Presentation**, “Species and lakeshore development effects on the relationship between fish abundance and catch rates,” GEM Annual Board Meeting and Conference, September 11, 2020.

INVITED TALKS AND LECTURES

- 2026 **Invited Speaker**, ASLO Emerging Fellow Program: Career Panel, April 23rd, 2026 (virtual)
- 2026 **Invited Speaker**, Forward-Facing Sonar Panel, North Country Icebreaker, Minnesota Chapter of Backcountry Hunters & Anglers, Breezy Point, MN, January 24th, 2026
- 2026 **Workshop Facilitator**, “Protecting Coldwater Fish Habitat in Minnesota Lakes,” Brainerd, MN, January 14th and 16th, 2026
- 2025 **Invited Speaker**, North Central Conservation Roundtable, Brainerd, MN, December 17th, 2025
- 2025 **Invited Speaker**, Minnesota Pollution Control Agency, North East and North Central Watershed Unit Meeting, October 21st, 2025 (virtual)
- 2025 **Invited Speaker**, Minnesota Department of Natural Resources Fisheries Technology Workgroup, October 23rd, 2025
- 2025 **Invited Seminar**, MarSci-URE PReP, Mote Marine Laboratory & Aquarium, Sarasota, FL, March 20th, 2025
- 2025 **Invited Speaker**, Pathways to Open Science Program (Openscapes), February 20th, 2025
- 2025 **Invited Seminar**, Lake/Reservoir Ecologist Seminar Series, Colorado State University, Fort Collins, CO, February 13th, 2025

- 2024 **Invited Speaker**, Harvard Forest Summer Research in Ecology: Career Panel, July 23rd, 2024 (virtual)
- 2024 **Invited Speaker**, “The Joy and Persistence of the Black Fisher Tradition: Know your audience”, American Fisheries Society Climate Ambassadors Program, January 8th, 2024
- 2022 **Invited Speaker**, “Fishscapes: Human impacts on lake ecology and fisheries dynamics”, UNDERC Seminar Series -UNDERC fellows, June 23, 2022.
- 2022 **Invited Speaker**, “Lake Ecology and Fish Habitat”, Black in Marine Science, BIMSTV, BIMS Bites, April 15, 2022.
- 2021 **Invited Lecture**, Aquatic Ecosystems, Limnology and Lakes in IN, Indiana Master Naturalist course, October 23, 2021
- 2021 **Invited Speaker**, “Fishscapes: Human impacts on lake ecology and fisheries dynamics (Social-ecological interactions in recreational fisheries)”, Limnology Seminar, Queen’s University, Kingston, ON, March 17, 2021.
- 2020 **Invited Speaker**, “Life after Emory: Is Graduate School for Me?” Initiative for Maximizing Student Development, Emory University, October 12, 2020.

PROFESSIONAL SERVICE

- 2026 BWEEMS Future Explorer Program Facilitator
- 2025 Peer Review *Fisheries Research*
- 2024-present Youth Mentor/Community Network of Support Faculty Member, Science Museum of Minnesota, GEOPaths (NSF Award #2325832)
- 2024-2026 University of Minnesota Post-Doctoral Association Policy Liaison Officer
- 2024-2025 BWEEMS conference committee Programs chair
- 2024 Peer Review *Freshwater Biology*
- 2024 BWEEMS mentorship program mentor 2023-2024 Cohort
- 2024 ND PREP Program mentor (2023-2024)
- 2024 Peer Review *Ecology of Freshwater Fish*
- 2023 Peer Review *North American Journal of Fisheries Management*
- 2023 Graduate Student Recruitment Representative (NCUR, Eau Claire, WI)
- 2023 Black Excellence Dinner Host-Walk the Walk Week
- 2022 Joint Aquatic Sciences Meeting (JASM) session mediator

2022	NSF Leaps workshop NALMS representative
2022	Graduate Resilience Alliance at Notre Dame (GRAND) Leader
2021	Graduate Student Advisory Council member
2020	TA & Grad Instructors of Color Learning Community member (Kaneb Center)
2020	Northern Indiana Regional Science & Engineering Fair Judge
2019	University of Notre Dame-AWIS Stem mentorship

MENTORING

Graduate Students

Josette McLean, BWEEMS-Duke University, August 2023 – May 2024

Aarohi Srivastava, University of Notre Dame, GRAND mentee, March 2022-August 2022

Lauren Galien, University of Notre Dame, GRAND mentee, March 2022-August 2022

Shuang Wu, University of Notre Dame, GRAND mentee, March 2022-August 2022

Undergraduate Students (Independent Research Advisees)

Gilberto Cerda, University of Notre Dame Jan 2023 – December 2023

Riri Wikara, University of Notre Dame, Jan 2023-April 2023

Griffin Yates, UNDERC class, Summer 2022

Ashton Bieri, UNDERC class, Summer 2021

Ryan Doyle, UNDERC class, Summer 2021

Michael Van't Slot, UNDERC class, Summer 2020

John Caffarelli, University of Notre Dame, August 2019-December 2019

Undergraduate and Post-Graduate Students (Field technicians)

Frankie Gonzalez, University of Wisconsin Stevens Point, May-August 2023

Jack Stecker, May 2022-August 2022

Stacey Vogel, May 2022-August 2022

Greyson Wolf, May 2022-August 2022

Benjamin Orhekowski, Northland College, May-August 2022

Elizabeth Hoots, May 2021-September 2021

Taylor Parker, May 2021-May 2022

Ana Lopez, August 2019-May 2021

TECHNICAL SKILLS

Online Course Management: Sakai, Canvas

Data Management: R, Unix, Microsoft Office, GitHub, Google Suite, Open Science Certificate

Data Visualization: R Studio (ggplot2), BioRender

PROFESSIONAL AFFILIATIONS

2024-present The Association for the Sciences of Limnology and Oceanography

2020-present American Fisheries Society, member

2023-present Black in Marine Science, member

2021-present Black Women in Ecology, Evolution, and Marine Science (BWEEMS), member

2021-present Ecological Society of America, member
2018-present Society for Advancement of Chicanos/Hispanics and Native Americans in Science (SACNAS), member
2021-2024 University of Notre Dame Graduate Students Against Racial Injustice, Co-President
2020-2024 North American Lake Management Society, Justice Equity Diversity Inclusion (JEDI) committee chair and intern supervisor
2020-2023 University of Notre Dame Black Graduate Student Association, President
2021 Biology Graduate Student Organization, Exec board, Vice President
2019 Association of Women in STEM (AWIS), University of Notre Dame-Stem Mentor
